FOR PUBLIC PROCUREMENT

Clear documentation for your procurement process.

You need to compare vendors on facts. We publish our capabilities with their status, our pricing model and our privacy commitments.

YOUR PRIORITIES

What matters to you.

Compare on evidence

Available capabilities and roadmap kept separate.

Forecast the cost

A readable, predictable pricing model.

Compliance

Québec's Law 25, hosting in Canada, legal documents.

Reversibility

Retrieve your data in open formats.

WHAT YOU GET

Concrete answers you can verify.

Public roadmap

Each capability labelled “Available” or “Roadmap”.

Roadmap →

Custom pricing

Base subscription + usage by number of active riders.

Pricing →

Open exports

Excel, CSV and JSON.

Integrations and data →

EVIDENCE

Facts, not promises.

Québec-based software company: KTMA Solutions Inc.

Privacy policy, terms and legal notice published

Demo by invitation, no commitment

Questions to ask us in the demo

Can you answer our requirements grid?

How is usage counted?

How do we get our data back when the contract ends?

VENDOR SHEET

The essentials for your file.

Have a requirements grid to complete? Send it by email and we will answer point by point, with the honest status of each capability.

Publisher

KTMA Solutions Inc., a Québec-based software company

Québec enterprise number (NEQ)

available on request

Product status

Pre-commercial: demos available by invitation; invitation-only trial coming

Pricing model

Base subscription + usage by number of active riders, custom quote

Hosting

Canada; provider details on request

Privacy

Québec's Law 25: designated privacy officer; PIA in preparation

Security

Database isolation, per-organization encryption, mandatory MFA; no external audit to date

Reversibility

Excel, CSV and JSON exports; data return terms specified in the contract

Published documents

Terms of use, privacy policy, legal notice, attributions, accessibility

Pre-commercial product · version of 26 November 2026

Terms of use · Privacy policy · Legal notice · Accessibility statement

PRICING

A clear model, with a custom quote.

CUSTOM QUOTE

Base subscription

Core functionality for your contracted scope, plus hosting in Canada and support.

+

USAGE-BASED

Active riders

A component proportional to the number of riders for whom a trip is planned.

Let's talk about your scope.

Organization, industry, number of riders, modules: we prepare a tailored proposal. No price is published at this stage.

Request a proposal

Other roles

For leadership

Quantified, defensible transportation decisions, with stated assumptions and limits.

For planners

Your expertise, without hours of manual calculation.

For transportation operators

Clear, realistic routes that are easy to run.

For IT and security

Data isolation built into the architecture, documented without spin.

KTMA Transport
by KTMA Solutions Inc.
